

# Keyboard

7140-58

## Specifications

- Frequency band: 2.4 - 2.4835GHz unlicensed ISM band
- Receiving sensitivity: -75dbm (standard)
- Battery Volume: 180mAh
- Working current: <10mA
- Standby current: <0.3mA
- Charging time: 3-4 hours
- RF output power: up to 40m as maximum
- Operation distance: 6 - 10m
- Dimension: 241 x 175 x 7mm
- Net weight: 356g

## Multimedia Functions

	+ Combo Multimedia Function		Play/Pause
	Home		Next Track
	Spotlight Search		Volume Down
	Select All		Volume Up
	Copy		Lock
	Paste	* 	For Android Mode

\* These modes indicate usage, and give the user the capabilities to toggle between types of operating systems.

## System Requirement

Smartphone:

- iOS devices: iPhone/iPad (iPhone 3GS + devices with iOS version iOS4.0+)
- Android devices: most Android mobile/tablet supporting Bluetooth HID connection.

PC:

- Windows XP/Vista/Win7/Win8+
- Mac OS

## Pairing with your Device

1. Slide the power button to ON then press the Pairing button on the face of the keyboard. A Blue LED light will flash signifying the keyboard is in pairing mode.
2. On your device choose the Bluetooth settings, turn the Bluetooth searching mode on and follow the provided instructions on your device.
3. Once your device finds the "Bluetooth 3.0 Keyboard" select it from the list.
4. If required for your device to connect with the keyboard, a passkey will be provided. Once you have entered the passkey with the Bluetooth Keyboard, complete the pairing by pressing the "ENTER" button on the keyboard.

## Trouble Shooting

If you cannot connect the Sphinx Bluetooth Keyboard to the computer, or the Keyboard doesn't work properly, please try the steps below:

1. Make sure that the computer is connected to the Sphinx Bluetooth Keyboard. If they have been previously paired, click enter while the keyboard is in standby mode.
2. Make sure that the keyboard is within the effective range - 10M.
3. Do not attempt to disassemble or modify the keyboard.
4. Charge the keyboard fully by using the provided USB charging cable.

## Safety Instructions

- Do not expose to flame.
- Do not use around or near water, for that could cause electric shock.
- Do not attempt to repair keyboard. If broken seek professional consultation.
- Keep keyboard out of intense temperature.

## FCC Information and Copyright

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,

uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference

to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is

encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**FCC RF warning** statement: the device has been evaluated to meet general RF exposure requirement , The device can be used in portable exposure condition without restriction.
